

## SAFETY DATA SHEET

Page : 1/10 Revised edition no : 7.0

Revision date : 2023-01-20 Supersedes version of : 2022-04-25

# Oxygen

NOAL\_0097A Country : DK / Language : EN

1.1. Product identifier	
Trade name	<ul> <li>Oxygen, ALbee Flame O2, Aligal 3, Alphagaz 1 Oxygen, Alphagaz 2 Oxygen, Oxygen Aviation, Phargalis 3, Oxygen Freelox LGC, Oxygen, Lasal 2003, Oxygen N35, Medical oxygen, Oxygen H64</li> </ul>
SDS no	: NOAL_0097A
Other means of identification	: Oxygen CAS-No. : 7782-44-7 EC-No. : 231-956-9
	EC Index-No. : 008-001-00-8
REACH registration No	: Listed in Annex IV / V REACH, exempted from registration.
Chemical formula	: 02
1.2. Relevant identified uses of the substant	ance or mixture and uses advised against
Relevant identified uses	<ul> <li>Industrial and professional uses. Perform risk assessment prior to use. Test gas/Calibration gas. Laboratory use. Welding, cutting, heating and brazing. Shield gas for welding processes. Use for manufacture of electronic/photovoltaic components. Water treatment. Laser gas. Food applications. Contact supplier for more information on uses.</li> </ul>
Uses advised against	: Consumer use. Uses other than those listed above are not supported, contact your supplier for more information on other uses.
1.3. Details of the supplier of the safety d	ata sheet
Company identification Supplier AIR LIQUIDE Denmark A/S Høje Taastrupvej 42 2630 Taastrup - DENMARK T +45 76 25 25 25 info.denmark@airliquide.com	
E-Mail address (competent person)	: eunordic-sds@airliquide.com
1.4. Emergency telephone number	
Emergency telephone number	: 112 (24 / 7) Availability

### **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]
Physical hazards
Oxidising Gases, Category 1

# SAFETY DATA SHEET

Page : 2/10 Revised edition no : 7.0 Revision date : 2023-01-20 Supersedes version of : 2022-04-25

Oxygen

Gases under pressure : Compressed gas

NOAL\_0097A

Country : DK / Language : EN

H280

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP)

: H270 - May cause or intensify fire; oxidiser.

: P403 - Store in a well-ventilated place.

Signal word (CLP)
Hazard statements (CLP)

Precautionary statements (CLP) - Prevention

- Response

- Storage

#### 2.3. Other hazards

None.

: Danger

The substance/mixture has no endocrine disrupting properties.

P410+P403 - Protect from sunlight. Store in a well-ventilated place.

H280 - Contains gas under pressure; may explode if heated.

P220 - Keep away from clothing and other combustible materials.
 P244 - Keep valves and fittings free from oil and grease.
 P220 - Keep away from clothing and other combustible materials.

: P370+P376 - In case of fire: Stop leak if safe to do so.

### **SECTION 3: Composition/information on ingredients**

#### 3.1. Substances

Name	Product identifier	Composition [V- %]:	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Oxygen	CAS-No.: 7782-44-7 EC-No.: 231-956-9 EC Index-No.: 008-001-00-8 REACH registration No: *1	100	Ox. Gas 1, H270 Press. Gas (Comp.), H280

Contains no other components or impurities which will influence the classification of the product.

\*1: Listed in Annex IV / V REACH, exempted from registration.

\*3: Registration not required: Substance manufactured or imported < 1t/y.

3.2. Mixtures Not established.

#### SECTION 4: First aid measures

4.1. Description of first aid measures	
- Inhalation	<ul> <li>Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.</li> <li>Remove victim to uncontaminated area.</li> </ul>
- Skin contact	: Adverse effects not expected from this product.
- Eye contact - Ingestion	<ul> <li>Adverse effects not expected from this product.</li> <li>Ingestion is not considered a potential route of exposure.</li> </ul>

## Oxygen

NOAL\_0097A

## Country : DK / Language : EN

### 4.2. Most important symptoms and effects, both acute and delayed

Continuous inhalation of concentrations higher than 75% may cause nausea, dizziness, respiratory difficulty and convulsion. See section 11.

#### 4.3. Indication of any immediate medical attention and special treatment needed

None.

SECTION 5: Firefighting measures		
5.1. Extinguishing media		
- Suitable extinguishing media	: Water spray or fog. Product does not burn, use fire control measures appropriate for the surrounding fire.	
- Unsuitable extinguishing media	: Do not use water jet to extinguish.	
5.2. Special hazards arising from the substand	ce or mixture	
Specific hazards	: Supports combustion. Exposure to fire may cause containers to rupture/explode.	
Hazardous combustion products	: None.	
5.3. Advice for firefighters		
Specific methods	<ul> <li>Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.</li> <li>If possible, stop flow of product.</li> <li>Use water spray or fog to knock down fire fumes if possible.</li> <li>Move containers away from the fire area if this can be done without risk.</li> </ul>	
Special protective equipment for fire fighters	<ul> <li>Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters.</li> <li>Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.</li> <li>Standard EN 469 - Protective clothing for firefighters. Standard - EN 659: Protective gloves for firefighters.</li> </ul>	

SECTION 6: Accidental release measures			
6.1. Personal precautions, protective equipment and emergency procedures			
For non-emergency personnel	: Act in accordance with local emergency plan. See section 8 of the SDS for more information on personal protective equipment		
For emergency responders	: See section 5.3 of the SDS for more information.		
6.2. Environmental precautions			
	Try to stop release.		
6.3. Methods and material for containment and cleaning up			
	Ventilate area.		
6.4. Reference to other sections			
	See also sections 8 and 13.

## Oxygen

NOAL\_0097A Country : DK / Language : EN

### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling Safe use of the product Do not breathe gas. The product must be handled in accordance with good industrial hygiene and safety procedures. Only experienced and properly instructed persons should handle gases under pressure. Consider pressure relief device(s) in gas installations. Ensure the complete gas system was (or is regularily) checked for leaks before use. Do not smoke while handling product. Keep equipment free from oil and grease. For more guidance, refer to the EIGA Doc. 33 -Cleaning of Equipment for Oxygen Service downloadable at http://www.eiga.eu. Use no oil or grease. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Use only oxygen approved lubricants and oxygen approved sealings. Use only with equipment cleaned for oxygen service and rated for container pressure. Avoid suck back of water, acid and alkalis. Safe handling of the gas receptacle Refer to supplier's container handling instructions. Do not allow backfeed into the container. Protect containers from physical damage; do not drag, roll, slide or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. If user experiences any difficulty operating valve discontinue use and contact supplier. Never attempt to repair or modify container valves or safety relief devices. Damaged valves should be reported immediately to the supplier. Keep container valve outlets clean and free from contaminants particularly oil and water. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to transfer gases from one cylinder/container to another. Never use direct flame or electrical heating devices to raise the pressure of a container. Do not remove or deface labels provided by the supplier for the identification of the content of the container. Suck back of water into the container must be prevented. Open valve slowly to avoid pressure shock. 7.2. Conditions for safe storage, including any incompatibilities Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion. Container valve guards or caps should be in place. Containers should be stored in the vertical position and properly secured to prevent them from falling over. Stored containers should be periodically checked for general condition and leakage. Keep container below 50°C in a well ventilated place. Segregate from flammable gases and other flammable materials in store. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

#### 7.3. Specific end use(s)

None.

SECTION 8: Exposure controls	/personal protection	
8.1. Control parameters		
OEL (Occupational Exposure Limits)	: None available.	
DNEL (Derived-No Effect Level)	: None available.	
PNEC (Predicted No-Effect Concentration	i) : None available.	
8.2. Exposure controls		
8.2.1. Appropriate engineering controls	5	
	Systems under pressure should be regularily cheo Avoid oxygen rich (>23,5%) atmospheres. Gas detectors should be used when oxidising gase Consider the use of a work permit system e.g. for	es may be released.
8.2.2. Individual protection measures, e	e.g. personal protective equipment	
	A risk assessment should be conducted and docur risks related to the use of the product and to selec The following recommendations should be conside PPE compliant to the recommended EN/ISO stand	t the PPE that matches the relevant risk. ered:
• Eye/face protection	: Wear safety glasses with side shields. Standard EN 166 - Personal eye-protection - spec	ifications.
Skin protection		
- Hand protection	<ul> <li>Wear working gloves when handling gas container Standard EN 388 - Protective gloves against mech</li> </ul>	
- Other	<ul> <li>Consider the use of flame resistant safety clothing.</li> <li>Standard EN ISO 14116 - Limited flame spread materials.</li> <li>Wear safety shoes while handling containers.</li> <li>Standard EN ISO 20345 - Personal protective equipment - Safety footwear.</li> </ul>	
	Standard EN ISO 20345 - Personal protective equ	lipment - Safety footwear.
<ul> <li>Respiratory protection</li> </ul>	<ul> <li>Standard EN ISO 20345 - Personal protective equ</li> <li>Self contained breathing apparatus is recommended</li> <li>expected, e.g. during maintenance activities on instance</li> <li>None necessary.</li> </ul>	ed, where unknown exposure may be
	<ul> <li>Self contained breathing apparatus is recommend expected, e.g. during maintenance activities on inst</li> </ul>	ed, where unknown exposure may be
Respiratory protection     Thermal hazards 8.2.3. Environmental exposure controls	<ul> <li>Self contained breathing apparatus is recommend expected, e.g. during maintenance activities on ins None necessary.</li> <li>None in addition to the above sections.</li> </ul>	ed, where unknown exposure may be

## **SECTION 9: Physical and chemical properties**

## 9.1. Information on basic physical and chemical properties

Appearance	
- Physical state at 20°C / 101.3kPa	: Gas
- Colour	: Colourless.
Odour	: No odour warning properties.
	Odour threshold is subjective and inadequate to warn of overexposure.
pH	: Not applicable for gases and gas mixtures.
Melting point / Freezing point	: -219 °C
	-219 °C
Boiling point	: -183 °C
Flash point	: Not applicable for gases and gas mixtures.
Flammability	: Non flammable.
Explosive limits	: Non flammable.
Lower explosion limit	: Not available
Upper explosion limit	: Not available

# Oxygen

Vapour pressure [20°C]	: Not applicable.
Vapour pressure [50°C]	: Not applicable.
Density	: Not applicable
Vapour density	: Not applicable for gases and gas mixtures.
Relative density, liquid (water=1)	: 1.1
Relative density, gas (air=1)	: 1.1
Water solubility	: 39 mg/l
Partition coefficient n-octanol/water (Log Kow)	: Not applicable for inorganic products.
Auto-ignition temperature	: Non flammable.
Decomposition temperature	: Not applicable.
Viscosity, kinematic	: No reliable data available.
Particle characteristics	: Not applicable for gases and gas mixtures.

#### 9.2. Other information

#### 9.2.1. Information with regard to physical hazard classes

: Not applicable.
: Oxidiser.
: 1
: -118 °C
: 32 g/mol
: Not applicable for gases and gas mixtures.
: Compressed gas

## 10.1 Popotivity

**SECTION 10: Stability and reactivity** 

10.1. Reactivity	
	No reactivity hazard other than the effects described in sub-sections below.
10.2. Chemical stability	
	Stable under normal conditions.
10.3. Possibility of hazardous reactions	
	None.
	Violently oxidises organic material.
10.4. Conditions to avoid	
	Avoid moisture in installation systems.
	Water, humidity.
10.5. Incompatible materials	
	May react violently with combustible materials.
	May react violently with reducing agents.
	Keep equipment free from oil and grease. For more guidance, refer to the EIGA Doc. 33 -
	Cleaning of Equipment for Oxygen Service downloadable at http://www.eiga.eu.
	For additional information on compatibility refer to ISO 11114.
10.6. Hazardous decomposition products	

None.

## **SECTION 11: Toxicological information**

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

: No known toxicological effects from this product.

Air Liquide	0	<b>Air Liquid</b>	е

## Oxygen

Oxygen			
		Country : DK / Language : EN	
Skin corrosion/irritation	: No known effects from this product.		
Serious eye damage/irritation	: No known effects from this product.		
Respiratory or skin sensitisation	: No known effects from this product.		
Germ cell mutagenicity	: No known effects from this product.		
Carcinogenicity	: No known effects from this product.		
Toxic for reproduction : Fertility	: No known effects from this product.		
Toxic for reproduction : unborn child	: No known effects from this product.		
STOT-single exposure	: No known effects from this product.		
STOT-repeated exposure	: No known effects from this product.		
Aspiration hazard	: Not applicable for gases and gas mixtures.		
11.2. Information on other hazards			
Other information	: The substance/mixture has no endocrine disrupting pro	perties.	

### SECTION 12: Ecological information

12.1. Toxicity	
Assessment	: No ecological damage caused by this product.
EC50 48h - Daphnia magna [mg/l]	: No data available.
EC50 72h - Algae [mg/l]	: No data available.
LC50 96 h - Fish [mg/l]	: No data available.
12.2. Persistence and degradability	
Assessment	: No ecological damage caused by this product.
12.3. Bioaccumulative potential	
Assessment	: No data available.
<u>12.4. Mobility in soil</u>	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.
12.5. Results of PBT and vPvB assessment	
Assessment	: No data available.
12.6. Endocrine disrupting properties	
	The substance/mixture has no endocrine disrupting properties.
12.7. Other adverse effects	
Other adverse effects	: No known effects from this product.
Effect on the ozone layer	: None.
Effect on global warming	: None.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Contact supplier if guidance is required. May be vented to atmosphere in a well ventilated place. Do not discharge into any place where its accumulation could be dangerous. Ensure that the emission levels from local regulations or operating permits are not exceeded. Refer to the EIGA code of practice Doc.30 "Disposal of Gases", downloadable at http://www.eiga.org for more guidance on suitable disposal methods. Return unused product in original container to supplier.
