Oxygen

NOAL_0097A Country : FI / Language : EN

1.1. Product identifier	
Trade name	: Oxygen, ALbee Flame O2, Aligal 3, Alphagaz 1 Oxygen, Alphagaz 2 Oxygen, Oxygen Aviation, Phargalis 3, Oxygen Freelox LGC, Oxygen, Lasal 2003, Oxygen N35, Medical oxygen, Oxygen H64
SDS no	: NOAL_0097A
Other means of identification	: Oxygen CAS-No. : 7782-44-7 EC-No. : 231-956-9 EC Index-No. : 008-001-00-8
REACH registration No	: Listed in Annex IV / V REACH, exempted from registration.
Chemical formula	: 02
1.2. Relevant identified uses of the subst	ance or mixture and uses advised against
Relevant identified uses	 Industrial and professional uses. Perform risk assessment prior to use. Test gas/Calibration gas. Laboratory use. Welding, cutting, heating and brazing.
	Shield gas for welding processes. Use for manufacture of electronic/photovoltaic components. Water treatment. Laser gas.
	Food applications. Contact supplier for more information on uses.
Uses advised against	 Consumer use. Uses other than those listed above are not supported, contact your supplier for more
	information on other uses.
1.3. Details of the supplier of the safety d	lata sheet
Company identification Supplier AIR LIQUIDE FINLAND OY Yrttipellontie 1 C 3 krs. 90230 OULU - FINLAND T +353 20 779 0580 info.finland@airliquide.com	
E-Mail address (competent person)	: eunordic-sds@airliquide.com
1.4. Emergency telephone number	
Emergency telephone number	 FI: Myrkytystietokeskus: 09-471 977 (suora) tai 09-4711 (vaihde) / EN: Poison Information Centre: 09-471 977 (direct) or 09-4711 (switchboard) Availability (24 / 7)

SECTION 2: Hazards in	dentification	
2.1. Classification of the sul	ostance or mixture	
Classification according to I	Regulation (EC) No. 1272/2008 [CLP]	
Physical hazards O	xidising Gases, Category 1 H	270
G	ases under pressure : Compressed gas H	280
2.2. Label elements		
abelling according to Regu	lation (EC) No. 1272/2008 [CLP]	
	GHS03 GHS04	
Signal word (CLP)	: Danger	
Hazard statements (CLP)	: H270 - May cause or intensify fire; oxidiser. H280 - Contains gas under pressure; may exp	lode if heated.
Precautionary statements (CL		
Prevention	 P220 - Keep away from clothing and other cor P244 - Keep valves and fittings free from oil a P220 - Keep away from clothing and other cor 	nd grease.
Response	: P370+P376 - In case of fire: Stop leak if safe	
Storage	: P403 - Store in a well-ventilated place.	
	P410+P403 - Protect from sunlight. Store in a	well-ventilated place.
2.3. Other hazards		
	None.	
	The substance/mixture has no endocrine disru	untin a una a attin a

SECTION 3: Composition/information on ingredients

3.1. Substances

Name	Product identifier	Composition [V- %]:	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Oxygen	CAS-No.: 7782-44-7 EC-No.: 231-956-9 EC Index-No.: 008-001-00-8 REACH registration No: *1	100	Ox. Gas 1, H270 Press. Gas (Comp.), H280

Contains no other components or impurities which will influence the classification of the product.

*1: Listed in Annex IV / V REACH, exempted from registration.

*3: Registration not required: Substance manufactured or imported < 1t/y.

Oxygen

Country : FI / Language : EN

3.2. Mixtures

Not established.

4.1. Description of first aid measures	
- Inhalation	 Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped. Remove victim to uncontaminated area.
- Skin contact	: Adverse effects not expected from this product.
- Eye contact	: Adverse effects not expected from this product.
- Ingestion	: Ingestion is not considered a potential route of exposure.
4.2. Most important symptoms and effect	ts, both acute and delayed
	Continuous inhalation of concentrations higher than 75% may cause nausea, dizziness, respiratory difficulty and convulsion. See section 11.
4.3. Indication of any immediate medical	l attention and special treatment needed
	None
SECTION 5: Firefighting measur	es
5.1. Extinguishing media	
5.1. Extinguishing media - Suitable extinguishing media	: Water spray or fog. Product does not burn, use fire control measures appropriate for the surrounding fire.
- Suitable extinguishing media	 Water spray or fog. Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish.
- Suitable extinguishing media - Unsuitable extinguishing media	Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish.
- Suitable extinguishing media - Unsuitable extinguishing media <u>5.2. Special hazards arising from the sul</u>	Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish.
- Suitable extinguishing media - Unsuitable extinguishing media <u>5.2. Special hazards arising from the sul</u> Specific hazards	Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish. bstance or mixture Supports combustion. Exposure to fire may cause containers to rupture/explode.
- Suitable extinguishing media - Unsuitable extinguishing media <u>5.2. Special hazards arising from the sul</u> Specific hazards	Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish. <u>bstance or mixture</u> Supports combustion.
	Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish. bstance or mixture Supports combustion. Exposure to fire may cause containers to rupture/explode.
Suitable extinguishing media Unsuitable extinguishing media 5.2. Special hazards arising from the sul Specific hazards Hazardous combustion products	Product does not burn, use fire control measures appropriate for the surrounding fire. Do not use water jet to extinguish. bstance or mixture Supports combustion. Exposure to fire may cause containers to rupture/explode.

Special protective equipment for fire fighters

	Move containers away from the fire area if this can be done without risk.
ent for fire fighters	: Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire
	fighters.
	Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full
	face mask.

Use water spray or fog to knock down fire fumes if possible.

Standard EN 469 - Protective clothing for firefighters. Standard - EN 659: Protective gloves for firefighters.

SECTION 6: Accidental release measures				
6.1. Personal precautions, protective equipment and emergency procedures				
For non-emergency personnel	: Act in accordance with local emergency plan.			
	See section 8 of the SDS for more information on personal protective equipment			
For emergency responders	: See section 5.3 of the SDS for more information.

Oxygen

6.2. Environmental precautions	s
--------------------------------	---

Try to stop release.

6.3. Methods and material for containment and cleaning up

Ventilate area.

6.4. Reference to other sections

See also sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Safe use of the product	: Do not breathe gas.
•	The product must be handled in accordance with good industrial hygiene and safety
	procedures.
	Only experienced and properly instructed persons should handle gases under pressure.
	Consider pressure relief device(s) in gas installations.
	Ensure the complete gas system was (or is regularily) checked for leaks before use.
	Do not smoke while handling product.
	Keep equipment free from oil and grease. For more guidance, refer to the EIGA Doc. 33 -
	Cleaning of Equipment for Oxygen Service downloadable at http://www.eiga.eu.
	Use no oil or grease.
	Use only properly specified equipment which is suitable for this product, its supply pressure
	and temperature. Contact your gas supplier if in doubt.
	Use only oxygen approved lubricants and oxygen approved sealings.
	Use only with equipment cleaned for oxygen service and rated for container pressure.
	Avoid suck back of water, acid and alkalis.
Safe handling of the gas receptacle	: Refer to supplier's container handling instructions.
	Do not allow backfeed into the container.
	Protect containers from physical damage; do not drag, roll, slide or drop.
	When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.)
	designed to transport cylinders.
	Leave valve protection caps in place until the container has been secured against either a
	wall or bench or placed in a container stand and is ready for use.
	If user experiences any difficulty operating valve discontinue use and contact supplier.
	Never attempt to repair or modify container valves or safety relief devices.
	Damaged valves should be reported immediately to the supplier.
	Keep container valve outlets clean and free from contaminants particularly oil and water.
	Replace valve outlet caps or plugs and container caps where supplied as soon as container
	is disconnected from equipment.
	Close container valve after each use and when empty, even if still connected to equipment.
	Never attempt to transfer gases from one cylinder/container to another.
	Never use direct flame or electrical heating devices to raise the pressure of a container.
	Do not remove or deface labels provided by the supplier for the identification of the content of the container.
	Suck back of water into the container must be prevented. Open valve slowly to avoid pressure shock.
	Open varve slowly to avoid pressure shock.

NOAL 0097A

Country : FI / Language : EN

Oxygen

7.2. Conditions for safe storage, including any incompatibilities

Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion.

Container valve guards or caps should be in place.

Containers should be stored in the vertical position and properly secured to prevent them from falling over.

Stored containers should be periodically checked for general condition and leakage.

Keep container below 50°C in a well ventilated place.

Segregate from flammable gases and other flammable materials in store.

Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

7.3. Specific end use(s)

None.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters	
OEL (Occupational Exposure Limits)	: None available.
DNEL (Derived-No Effect Level)	: None available.
PNEC (Predicted No-Effect Concentration)	: None available.
8.2. Exposure controls	
8.2.1. Appropriate engineering controls	
	Provide adequate general and local exhaust ventilation. Systems under pressure should be regularily checked for leakages. Avoid oxygen rich (>23,5%) atmospheres. Gas detectors should be used when oxidising gases may be released. Consider the use of a work permit system e.g. for maintenance activities.
8.2.2. Individual protection measures, e.g. perso	nal protective equipment
	A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.
Eye/face protection	: Wear safety glasses with side shields. Standard EN 166 - Personal eye-protection - specifications.
Skin protection	
- Hand protection	: Wear working gloves when handling gas containers. Standard EN 388 - Protective gloves against mechanical risk, performance level 1 or higher.
- Other	 Consider the use of flame resistant safety clothing. Standard EN ISO 14116 - Limited flame spread materials. Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
Respiratory protection	 Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems. None necessary.
Thermal hazards	: None in addition to the above sections.
8.2.3. Environmental exposure controls	
	Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

Oxygen

NOAL_0097A

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
- Physical state at 20°C / 101.3kPa	: Gas
- Colour	: Colourless.
Odour	: No odour warning properties.
	Odour threshold is subjective and inadequate to warn of overexposure.
pH	: Not applicable for gases and gas mixtures.
Melting point / Freezing point	: -219 °C
	-219 °C
Boiling point	: -183 °C
Flash point	: Not applicable for gases and gas mixtures.
Flammability	: Non flammable.
Explosive limits	: Non flammable.
Lower explosion limit	: Not available
Upper explosion limit	: Not available
Vapour pressure [20°C]	: Not applicable.
Vapour pressure [50°C]	: Not applicable.
Density	: Not applicable
Vapour density	: Not applicable for gases and gas mixtures.
Relative density, liquid (water=1)	: 1.1
Relative density, gas (air=1)	: 1.1
Water solubility	: 39 mg/l
Partition coefficient n-octanol/water (Log Kow)	: Not applicable for inorganic products.
Auto-ignition temperature	: Non flammable.
Decomposition temperature	: Not applicable.
Viscosity, kinematic	: No reliable data available.
Particle characteristics	: Not applicable for gases and gas mixtures.

9.2. Other information

9.2.1. Information with regard to physical hazard classes

Explosive properties	: Not applicable.
Oxidising properties	: Oxidiser.
- Coefficient of oxygen equivalency (Ci)	: 1
Critical temperature [°C]	: -118 °C
9.2.2. Other safety characteristics	
Molar mass	: 32 g/mol
Evaporation rate	: Not applicable for gases and gas mixtures.

Gas group	:	Compressed gas
SECTION 10: Stability and reactivity		

10.1. Reactivity

No reactivity hazard other than the effects described in sub-sections below.

10.2. Chemical stability

10.3. Possibility of hazardous reactions

Stable under normal conditions.

None.

Violently oxidises organic material.

SAFETY DATA SHEET

NOAL 0097A

Oxygen

		Country : FI / Language : EN
10.4. Conditions to avoid		
	Avoid moisture in installation systems.	
	Water, humidity.	
10.5. Incompatible materials		
	May react violently with combustible materials.	
	May react violently with reducing agents.	
	Keep equipment free from oil and grease. For more gui	dance, refer to the EIGA Doc. 33 -
	Cleaning of Equipment for Oxygen Service downloadab	ble at http://www.eiga.eu.
	For additional information on compatibility refer to ISO	
10.6. Hazardous decomposition products		
	None.	

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008			
Acute toxicity	: No known toxicological effects from this product.		
Skin corrosion/irritation	: No known effects from this product.		
Serious eye damage/irritation	: No known effects from this product.		
Respiratory or skin sensitisation	: No known effects from this product.		
Germ cell mutagenicity	: No known effects from this product.		
Carcinogenicity	: No known effects from this product.		
Toxic for reproduction : Fertility	: No known effects from this product.		
Toxic for reproduction : unborn child	: No known effects from this product.		
STOT-single exposure	: No known effects from this product.		
STOT-repeated exposure	: No known effects from this product.		
Aspiration hazard	: Not applicable for gases and gas mixtures.		
11.2. Information on other hazards			
Other information	: The substance/mixture has no endocrine disrupting properties.		

SECTION 12: Ecological information	
<u>12.1. Toxicity</u>	
Assessment	: No ecological damage caused by this product.
EC50 48h - Daphnia magna [mg/l] EC50 72h - Algae [mg/l] LC50 96 h - Fish [mg/l]	 No data available. No data available. No data available.
12.2. Persistence and degradability	
Assessment	: No ecological damage caused by this product.
12.3. Bioaccumulative potential	
Assessment	: No data available.
<u>12.4. Mobility in soil</u>	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.
12.5. Results of PBT and vPvB assessment	
Assessment	: No data available.

12.6. Endocrine disrupting properties

SECTION 13: Disposal considerations

	The substance/mixture has no endocrine disrupting properties.
12.7. Other adverse effects	
Other adverse effects	: No known effects from this product.
Effect on the ozone layer	: None.
Effect on global warming	: None.

13.1. Waste treatment methods	
List of hazardous waste codes (from Commission Decision 2000/532/EC as amended)	 Contact supplier if guidance is required. May be vented to atmosphere in a well ventilated place. Do not discharge into any place where its accumulation could be dangerous. Ensure that the emission levels from local regulations or operating permits are not exceeded. Refer to the EIGA code of practice Doc.30 "Disposal of Gases", downloadable at http://www.eiga.org for more guidance on suitable disposal methods. Return unused product in original container to supplier. 16 05 04 *: Gases in pressure containers (including halons) containing hazardous substances.
13.2. Additional information	
	External treatment and disposal of waste should comply with applicable local and/or national regulations.

SECTION 14: Transport information	
14.1. UN number or ID number	
In accordance with ADR / RID / IMDG / IATA / ADN UN-No.	: 1072
14.2. UN proper shipping name	
Transport by road/rail (ADR/RID)	: OXYGEN, COMPRESSED
Transport by air (ICAO-TI / IATA-DGR)	: Oxygen, compressed
Transport by sea (IMDG)	: OXYGEN, COMPRESSED
14.3. Transport hazard class(es)	
Labelling	
	2.2 : Non-flammable, non-toxic gases.
	5.1 : Oxidizing substances.
Transport by road/rail (ADR/RID) Class	: 2
Classification code	: 10
Hazard identification number	: 25
Tunnel Restriction	E - Passage forbidden through tunnels of category E
Transport by air (ICAO-TI / IATA-DGR)	
Class / Div. (Sub. risk(s))	: 2.2 (5.1)

DISCLAIMER OF LIABILITY

Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out.
 Details given in this document are believed to be correct at the time of going to press.
 Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.

End of document
