Helium (refrigerated)

NOAL_0061B Country : SE / Language : EN

SECTION 1: Identification of the sub	stance/mixture and of the company/undertaking
1.1. Product identifier	
Trade name SDS no Other means of identification	 Helium (refrigerated), Alphagaz Helium LGC NOAL_0061B Helium (refrigerated) CAS-No. : 7440-59-7 EC-No. : 231-168-5 EC Index-No. :
REACH registration No	: Listed in Annex IV / V REACH, exempted from registration.
Chemical formula	: He
1.2. Relevant identified uses of the substance	e or mixture and uses advised against
Relevant identified uses	 Industrial and professional uses. Perform risk assessment prior to use. Test gas/Calibration gas. Laboratory use. Purge gas, diluting gas, inerting gas. Purging. Shield gas for welding processes. Use for manufacture of electronic/photovoltaic components. Contact supplier for more information on uses.
Uses advised against	 Do not inhale product on purpose because of the risk of asphyxiation. Uses other than those listed above are not supported, contact your supplier for more information on other uses.
1.3. Details of the supplier of the safety data s	sheet
Company identification	
Supplier AIR LIQUIDE GAS AB Pulpetgatan 20 215 37 Malmö - SWEDEN T +46 40 38 10 00 info.sweden@airliquide.com E-Mail address (competent person)	: eunordic-sds@airliquide.com
E-inali address (competent person)	. eunoruic-sus@almiquide.com
1.4. Emergency telephone number	
Emergency telephone number	: 112 Availability (24 / 7)

Country	Organisation/Company	Address	Emergency number	Comment
Germany	Giftnotruf Erfurt Gemeinsames Giftinformationszentrum der Länder Mecklenburg-Vorpommern, Sachsen, Sachsen-Anhalt und Thüringen, c/o HELIOS Klinikum Erfurt	Nordhäuser Straße 74 99089 Erfurt	+49 (0) 361 730 730

- Storage <u>2.3. Other hazards</u>			
Ū.	: P403 - Store in a well-ventilated place.		

SECTION 3: Composition/information on ingredients

3.1. Substances

Name	Product identifier	Composition [V- %]:	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Helium (refrigerated)	CAS-No.: 7440-59-7 EC-No.: 231-168-5 EC Index-No.: REACH registration No: *1	100	Press. Gas (Ref. Liq.), H281

Contains no other components or impurities which will influence the classification of the product.

*1: Listed in Annex IV / V REACH, exempted from registration.

*3: Registration not required: Substance manufactured or imported < 1t/y. Not established.

3.2. Mixtures

SECTION 4: First aid measures

4.1. Description of first aid measures

- Inhalation

: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.

Skin contact Eye contact Ingestion	 In case of frostbite spray with water for at least 15 m medical assistance. Immediately flush eyes thoroughly with water for at Ingestion is not considered a potential route of exponential rou	least 15 minutes.
1.2. Most important symptoms and ef	fects, both acute and delayed	
4.3. Indication of any immediate medi	In high concentrations may cause asphyxiation. Syn mobility/consciousness. Victim may not be aware of See section 11. ical attention and special treatment needed	
	None.	
SECTION 5: Firefighting meas	ures	
5.1. Extinguishing media		
Suitable extinguishing media	: Water spray or fog. Product does not burn, use fire control measures a	opropriate for the surrounding fire.
Unsuitable extinguishing media	: Do not use water jet to extinguish.	
5.2. Special hazards arising from the	substance or mixture	
Specific hazards	: Exposure to fire may cause containers to rupture/ex	kplode.
Hazardous combustion products	: None.	
5.3. Advice for firefighters		
Specific methods	 Use fire control measures appropriate for the surrou radiation may cause gas receptacles to rupture. Co spray jet from a protected position. Prevent water u sewers and drainage systems. If possible, stop flow of product. Use water spray or fog to knock down fire fumes if position do not spray water onto container. Water position) to contain fire. Move containers away from the fire area if this can 	ol endangered receptacles with water sed in emergency cases from entering possible. surrounding area (from protected

SECTION 6: Accidental release measures

For non-emergency personnel	: Act in accordance with local emergency plan.
	Try to stop release.
	Evacuate area.
	Ensure adequate air ventilation.
	Use protective clothing.
	Stay upwind.
	See section 8 of the SDS for more information on personal protective equipment
For emergency responders	: Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.
	Oxygen detectors should be used when asphyxiating gases may be released.
	See section 5.3 of the SDS for more information.

Helium (refrigerated)

NOAL_0061B Country : SE / Language : EN

6.2. Environmental precautions

Try to stop release.

Liquid spillages can cause embrittlement of structural materials.

6.3. Methods and material for containment and cleaning up

Ventilate area.

6.4. Reference to other sections

See also sections 8 and 13.

SECTION 7: Handling and storage 7.1. Precautions for safe handling Safe use of the product : Do not breathe gas. Avoid release of product into atmosphere. The product must be handled in accordance with good industrial hygiene and safety procedures. Only experienced and properly instructed persons should handle gases under pressure. Consider pressure relief device(s) in gas installations. Ensure the complete gas system was (or is regularily) checked for leaks before use. Do not smoke while handling product. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Avoid suck back of water, acid and alkalis. Safe handling of the gas receptacle Refer to supplier's container handling instructions. Do not allow backfeed into the container. Protect containers from physical damage; do not drag, roll, slide or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. If user experiences any difficulty operating valve discontinue use and contact supplier. Never attempt to repair or modify container valves or safety relief devices. Damaged valves should be reported immediately to the supplier. Keep container valve outlets clean and free from contaminants particularly oil and water. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to transfer gases from one cylinder/container to another. Never use direct flame or electrical heating devices to raise the pressure of a container. Do not remove or deface labels provided by the supplier for the identification of the content of the container. Suck back of water into the container must be prevented. Open valve slowly to avoid pressure shock. 7.2. Conditions for safe storage, including any incompatibilities Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion.

Container valve guards or caps should be in place.

Containers should be stored in the vertical position and properly secured to prevent them from falling over.

Stored containers should be periodically checked for general condition and leakage. Keep container below 50°C in a well ventilated place.

Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

Helium (refrigerated)

NOAL_0061B Country : SE / Language : EN

7.3. Specific end use(s)

None.

SECTION 8: Exposure controls/personal protection		
8.1. Control parameters		
OEL (Occupational Exposure Limits)	: None available.	
DNEL (Derived-No Effect Level)	: None available.	
PNEC (Predicted No-Effect Concentration)	: None available.	
8.2. Exposure controls		
8.2.1. Appropriate engineering controls		
	Provide adequate general and local exhaust ventilation. Systems under pressure should be regularily checked for leakages. Oxygen detectors should be used when asphyxiating gases may be released. Consider the use of a work permit system e.g. for maintenance activities.	
8.2.2. Individual protection measures, e.g. pe	rsonal protective equipment	
	A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.	
Eye/face protection	: Wear goggles and a face shield when transfilling or breaking transfer connections. Standard EN 166 - Personal eye-protection - specifications.	
Skin protection		
- Hand protection	 Wear working gloves when handling gas containers. Standard EN 388 - Protective gloves against mechanical risk, performance level 1 or higher. Wear cold insulating gloves when transfilling or breaking transfer connections. Standard EN 511 - Cold insulating gloves. 	
- Other	: Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.	
Respiratory protection	 Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask. Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen-deficient atmospheres. Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems. 	
• Thermal hazards	: None in addition to the above sections.	
8.2.3. Environmental exposure controls		
	None necessary	

None necessary.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties		
Appearance		
- Physical state at 20°C / 101.3kPa	: Gas	
- Colour	: Colourless.	
Odour	: No odour warning properties.	
	Odour threshold is subjective and inadequate to warn of overexposure.	
рН	: Not applicable for gases and gas mixtures.	
Melting point / Freezing point	: -272 °C	
Boiling point	: -269 °C	
Flash point	: Not applicable for gases and gas mixtures.

Helium (refrigerated)

NOAL	_0061B
Country : SE /	Language : EN

Flammability	: Non flammable.
Explosive limits	: Non flammable.
Lower explosion limit	: Not available
Upper explosion limit	: Not available
Vapour pressure [20°C]	: Not applicable.
Vapour pressure [50°C]	: Not applicable.
Density	: Not applicable
Vapour density	: Not applicable for gases and gas mixtures.
Relative density, liquid (water=1)	: 0.12
Relative density, gas (air=1)	: 0.14
Water solubility	: 1.5 mg/l
Partition coefficient n-octanol/water (Log Kow)	: Not applicable for inorganic products.
Auto-ignition temperature	: Non flammable.
Decomposition temperature	: Not applicable.
Viscosity, kinematic	: No reliable data available.
Particle characteristics	: Not applicable for gases and gas mixtures.

9.2. Other information

9.2.1. Information with regard to physical hazard classes

Explosive properties	Not applicable.
Oxidising properties	Not applicable.
Critical temperature [°C]	-268 °C
9.2.2. Other safety characteristics	
Molar mass	: 4 g/mol
Evaporation rate	Not applicable for gases and gas mixtures.
Gas group	Press. Gas (Ref. Liq.)

SECTION 10: Stability and reactivity

10.1. Reactivity

	No reactivity hazard other than the effects described in sub-sections below.
10.2. Chemical stability	
	Stable under normal conditions.
10.3. Possibility of hazardous reactions	
	None.
Reactivity	None.
10.4. Conditions to avoid	
	None under recommended storage and handling conditions (see section 7).
	Avoid moisture in installation systems.
10.5. Incompatible materials	
	For additional information on compatibility refer to ISO 11114.
10.6. Hazardous decomposition products	
	None.

SECTION 11: Toxicological information		
11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008		
Acute toxicity	: No toxicological effects from this product.	
Skin corrosion/irritation	: No known effects from this product.	

SAFETY DATA SHEET

Helium (refrigerated)

	, , , , , , , , , , , , , , , , , , , ,
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	: No known effects from this product.
STOT-single exposure	: No known effects from this product.
STOT-repeated exposure	: No known effects from this product.
Aspiration hazard	: Not applicable for gases and gas mixtures.
11.2. Information on other hazards	
Other information	: The substance/mixture has no endocrine disrupting properties.

SECTION 12: Ecological information

<u>12.1. Toxicity</u>	
Assessment	: No ecological damage caused by this product.
EC50 48h - Daphnia magna [mg/l]	: No data available.
	: No data available.
LC50 96 h - Fish [mg/l]	: No data available.
12.2. Persistence and degradability	
Assessment	No ecological damage caused by this product.
12.3. Bioaccumulative potential	
Assessment	No data available.
<u>12.4. Mobility in soil</u>	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.
12.5. Results of PBT and vPvB assessment	
Assessment	No data available.
	Not classified as PBT or vPvB.
12.6. Endocrine disrupting properties	
	The substance/mixture has no endocrine disrupting properties.
12.7. Other adverse effects	
Other adverse effects	: Can cause frost damage to vegetation.
	: None.
Effect on global warming	: None.

SECTION 13: Disposal considerations	
-------------------------------------	--

13.1. Waste treatment methods May be vented to atmosphere in a well ventilated place. Do not discharge into any place where its accumulation could be dangerous. Return unused product in original container to supplier. List of hazardous waste codes (from Commission Decision 2000/532/EC as amended) : 16 05 05 : Gases in pressure containers other than those mentioned in 16 05 04.

13.2. Additional information

External treatment and disposal of waste should comply with applicable local and/or national regulations.

14.1. UN number or ID number	
n accordance with ADR / RID / IMDG / IATA / ADN	
JN-No.	: 1963
14.2. UN proper shipping name	
Fransport by road/rail (ADR/RID)	: HELIUM, REFRIGERATED LIQUID
Fransport by air (ICAO-TI / IATA-DGR)	: Helium, refrigerated liquid
Fransport by sea (IMDG)	: HELIUM, REFRIGERATED LIQUID
14.3. Transport hazard class(es)	
abelling	
	2
	2.2 : Non-flammable, non-toxic gases.
Fransport by road/rail (ADR/RID)	
Class	: 2
Classification code	: 3A
lazard identification number	: 22
Funnel Restriction	: C/E - Tank carriage: Passage forbidden through tunnels of category C, D and E. Other carriage: Passage forbidden through tunnels of category E
Гransport by air (ICAO-TI / IATA-DGR)	
Class / Div. (Sub. risk(s))	: 2.2
Fransport by sea (IMDG)	
Class / Div. (Sub. risk(s))	: 2.2
Emergency Schedule (EmS) - Fire	: F-C
Emergency Schedule (EmS) - Spillage	: S-V
14.4. Packing group	
Fransport by road/rail (ADR/RID)	: Not established.
Transport by air (ICAO-TI / IATA-DGR)	: Not established.
Fransport by sea (IMDG)	: Not established.
14.5. Environmental hazards	
ransport by road/rail (ADR/RID)	: None.
Fransport by air (ICAO-TI / IATA-DGR)	: None.
Fransport by sea (IMDG)	: None.
14.6. Special precautions for user	
Packing Instruction(s)	
Fransport by road/rail (ADR/RID)	: P203
Transport by air (ICAO-TI / IATA-DGR)	
Passenger and Cargo Aircraft	: 202.
Cargo Aircraft only	: 202.
Transport by sea (IMDG)	: P203
